

CHILDREN'S MENTAL HEALTH WEEK

MAY 5-11, 2019

Wear a **green** ribbon to show your support for children's mental health and wellness in your community!

Mental Health
Awareness

MAY

Children's Mental Health Week was originally created by a group of parents in Missouri who wanted to fight discrimination and raise awareness in their communities about mental health in children, youth, and families.

PPAL has been celebrating CMHW in Massachusetts since 1996. Every year, we are proud to see continued growth and support, strengthening family voice in communities, creating better futures for our children.
